

## Handle the pressure with confidence

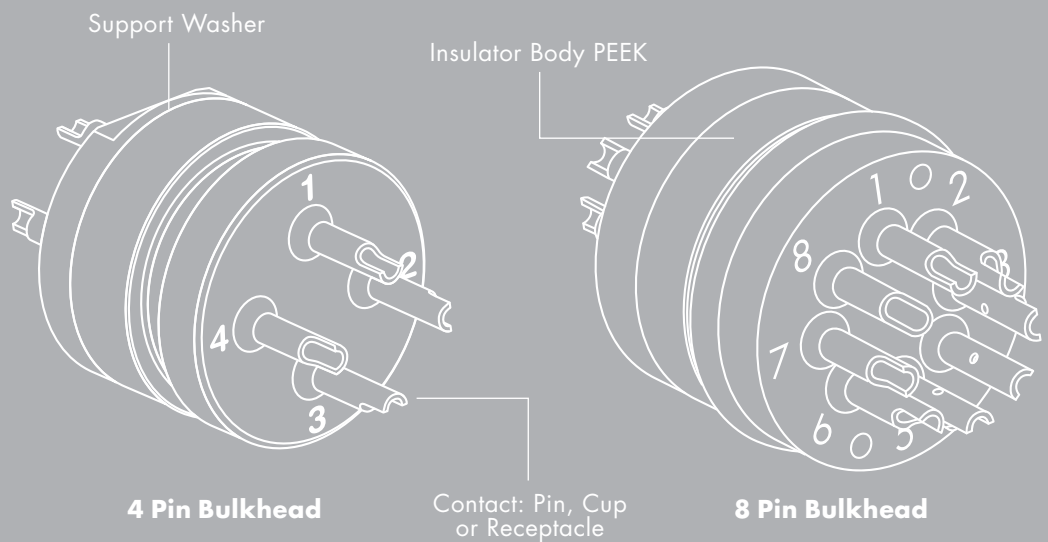

**Canyon delivers reliable performance and quick turnaround—even on custom orders.**

We all know downhole pressure can be extreme—but it's nothing compared to the pressure you face on the job. From growing performance goals to shrinking budgets, our Pressure Bulkhead stands up to it all.

For on-demand orders, our standard packages feature performance you can trust. On custom orders, we'll expertly engineer and manufacture product to meet both your specific product requirements and your specific timeline. And because every Canyon Manufacturing product is tested beyond the standard rating, you get components designed to handle the toughest conditions—so you can handle the pressure with confidence.

### 20,000 PSI BULKHEAD
